

Event Title: Codenza (Coding Challenge)

Tagline: Where Logic Meets Speed.

Overview:

A solo competitive coding challenge where participants must solve algorithmic and logical problems under time pressure.

Team Size: Individual

Eligibility: Open to students from CS, IT, and related streams

Rules & Regulations:

- Programming languages permitted: C, C++, Java, and Python.
- A platform-based test will be conducted.
- Internet usage is prohibited, except through the official competition platform if required.
- Evaluation criteria will be explained before the event starts and will be based on correctness, execution time, and code efficiency.
